

TIMICLASSIC

LUXURY BRIDAL & BESPOKE FASHION

BRAND PORTFOLIO

WHERE CRAFT MEETS IDENTITY

OUR LEGACY & VISION

Founded in 2018, Timiclassic started as a visionary bespoke atelier in response to a growing need for unmatched precision and high-fashion couture.

We specialize in creating premium custom garments, ranging from structural bridal gowns that captivate the room, to vibrant, heritage-rich traditional outfits that celebrate identity and culture. Each piece is modeled and constructed to the wearer's unique dimensions, ensuring an absolute second-skin fit.

OUR CREATIVE PHILOSOPHY

THE STANDARDS GUIDING EVERY SINGLE STITCH

UNCOMPROMISING FIT

We take over 30 measurement checkpoints for every client. Our patterns are individually drafted to ensure an effortless, comfortable, and perfect posture alignment.

STRUCTURAL PRECISION

From built-in corsetry to hand-sewn canvas interfacing, we sculpt the interior structure of our garments so they drape naturally and retain their majestic shape.

HERITAGE & INNOVATION

We honor rich fabrics (Aso-Oke, Brocade, Silk, Lace) and traditional weaving techniques, blending them seamlessly with modern cuts and contemporary styling.

THE CLIENT EXPERIENCE

HOW WE TRANSLATE IDEAS INTO COUTURE MASTERPIECES

01

CONSULTATION & MAPPING

We understand the client's design vision, review styling inspirations, analyze fabric compositions, and create customized structural silhouette maps.

02

CUSTOM PATTERN DRAFTING & MEASUREMENTS

Over 30 individual measurement points are charted. A unique paper pattern is designed from scratch, custom-fit to the client's specific posture and dimensions.

03

BASTING, FITTING & FINAL ASSEMBLY

The garment is assembled temporarily for trial fittings. Sizing adjustments are made to ensure a flawless second-skin fit before the final silk linings and closures are attached.

INVESTOR VALUE PROPOSITION

SCALING LUXURY BESPOKE OPERATIONS

BESPOKE MODEL SCALE & EFFICIENCY

Unlike traditional high-inventory fashion brands, our bespoke client portal model enables on-demand production. Since every garment is fully paid and customized, we maintain near-zero inventory risk and optimize resource utilization.

STRONG UNIT ECONOMICS

High average order value (AOV) driven by structural bridal gowns and premium heritage designs yields excellent gross margins. Repeat clients represent over 40% of our seasonal order book.

PROPRIETARY CLIENT DIGITAL SYSTEM

By integrating a proprietary online designer console and client portal, we streamline measurements, order tracking, invoice downloads, and fit updates, creating a modern SaaS-like operations flow for a luxury retail brand.
